What is IPBaseT®?

Aurora's IPBaseT® combines a variety of 4K IP technologies and features under one unified protocol using a simplified topology. Uncompressed video with zero-latency, visually lossless video with low latency, seamless switching, video wall and multiviewer modes, digital audio, USB 2.0, Ethernet, and control are just some of the core capabilities of IPBaseT®. Utilizing the bandwidth of a standard 1Gbps copper (VLX Series) or 10Gbps copper or fiber (IPX Series), IPBaseT® supports large scalable audio/video matrixing, and it does so while replacing multiple technologies and products with a "single-box" distributed platform. The days of needing a separate AV switcher, control system, Video Wall processor, audio/DSP converter, and more are a thing of the past!

iPBT_{ASE}

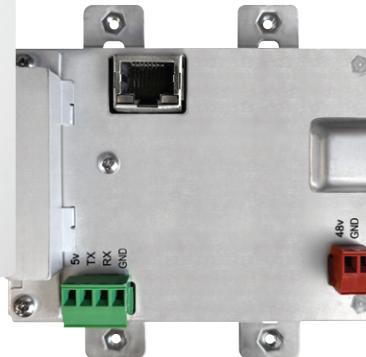

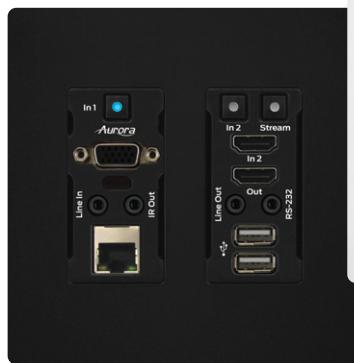

Transceiver?

The IPX/VLX transceiver is a single unit that can be configured as a transmitter or a receiver. Modes can be changed on the fly allowing for dynamic configurations. **INDUSTRY FIRST!**

AV System and IPBaseT® Comparison Charts

VLX-TCW2H-C & VLX-TCW2V-C

The VLX-TCW2 Series provides one of the most advanced IP Streaming solutions on the market utilizing Aurora's IPBaseT® technology, which synergizes various IP/AV standards to work together as one. It is the industry's first 4K UHD transceiver with only 1.5 frame (25ms) latency and visually lossless compression. The VLX-TCW2 is available in 2 models, VGA/HDMI® (VLX-TCW2V) and 2 HDMI® (VLX-TCW2H). Using a transmitter (encoder) and receiver (decoder), respectively, used to be the standard – until now. The VLX-TCW2 Series can be set up as either one to make installation, inventory, and troubleshooting easier.

- 4K visually lossless over 1Gbps network
- Low 1.5 frame latency
- HDMI® 2.0/HDCP 2.2
- Unlimited scalability (based on network topology)
- Video wall with image rotation
- Online streaming video preview
- Cloning
- Channel mapping
- PoE (power over ethernet)
- Stereo line I/O
- RS-232 & IR control ports
- Auto sense switching
- Break-away switching
- USB 2.0 host & device ports
- Dante™ IP audio option
- ReAX™ IP control option
- Secure content encryption

Accessories:

Control

- RXS-1 — ReAX™ Server
- IPBaseT® Manager

Option Cards

- IPE-DTE-1 — Dante™ option
- IPE-REAX-1 — ReAX™ IP Control

Power Supplies

- PS0081-1 — 48V 24 Watt PoE Injector
- PS0094-2 — 48V 25 Watt Wall Supply

Cables

- CA-HDMI

NEW

VLX-TC1-CF

The VLX-TC1-CF Series provides one of the most advanced IP Streaming solutions on the market utilizing Aurora's IPBaseT® technology, which synergizes various IP/AV standards to work together as one. It is the industry's first 4K UHD transceiver with only 1.5 frame (25ms) latency and visually lossless compression. Using a transmitter (encoder) and receiver (decoder), respectively, used to be the standard – until now. The VLX-TC1-CF Series can be set up as either one to make installation, inventory, and troubleshooting easier.

- 4K visually lossless over 1Gbps network
- Low 1.5 frame latency
- SFP fiber or secondary RJ-45
- HDMI® 2.0/HDCP 2.2
- Unlimited scalability (based on network topology)
- Video wall with image rotation
- Online streaming video preview
- Cloning
- Channel mapping
- PoE (power over ethernet)
- Stereo line I/O
- RS-232 & IR control ports
- Auto sense switching
- Break-away switching
- USB 2.0 host & device ports
- Dante™ IP audio option
- ReAX™ IP control option
- Secure content encryption

Accessories:

SFP Modules

- IPX-SFP-RJ45-1 — 1G RJ-45 LAN
- IPX-SFP-1GMM-1 — 1G Multi-mode Fiber
- IPX-SFP-1G20 — 1G Single-mode Duplex Fiber

Control

- RXS-1 — ReAX™ Server
- IPBaseT® Manager

Option Cards

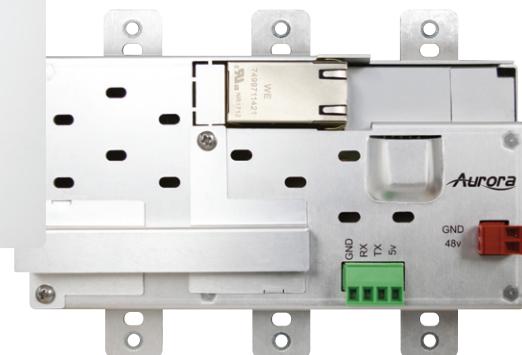

- IPE-DTE-1 — Dante™ option
- IPE-REAX-1 — ReAX™ IP Control

Mounting Options

- VLX-TC1-RK1 — 1RU Dual Rack Mount Kit
- VLX-TC1-RK5 — 5RU Rack Mount Kit (Holds 12 Units)

Power Supplies

- PS0081-1 — 48V 24 Watt PoE Injector
- PS0094-2 — 48V 25 Watt Wall Supply

NEW

IPX-TC3-WP-C & IPX-TC3-WP-F

IPX-TC3-WP 4K2K IP AV distribution wall plate built on Aurora's IPBaseT™ technology – which synergizes various IP and AV technologies to work together as one – the three-gang in-wall transceiver is the industry's first 4K2K IP wall plate to feature zero compression and zero latency. To simplify AV room combining in business centers, hospitality settings, and medical and government facilities, the IPX-TC3-WP can be set up as either a transmitter (input) or a receiver (output). When configured as a transmitter, the auto-detectable HDMI® inputs allow for two sources to be selected from a single wall plate over the network, and the HDMI® output becomes a local loop-through for the selected source. When configured as a receiver, the IPX-TC3-WP serves as an output HDMI® plate installed behind a display for easy wiring, and its two HDMI® inputs become local source inputs for in-room viewing. The wall plate features built-in source switching for seamless operation; analog and digital audio de-embedding with flexible audio breakaway switching; as well as RS-232, IR and Ethernet Control at any transceiver location.

- 4K 60Hz 4:4:4 lossless compression & zero frame latency
- HDR (high dynamic range)
- 4K 30Hz 4:4:4 & below – zero compression & zero frame latency
- Available for 10Gbps fiber MMF/SMF or 10Gbps copper networks
- Unlimited scalability (based on network topology)
- Seamless & breakaway switching (between same resolution)
- Stereo line I/O
- RS-232 & IR control ports
- Integrated web server
- Dante™ IP audio option
- ExtremeUSB® (USB 2.0 480Mbps) option

- ReAX™ IP control option
- Secure content encryption

Accessories:

Control

- RXS-1 — ReAX™ Server
- IPBaseT® Manager

Option Cards

- IPE-DTE-1 — Dante™ 2-channel
- IPE-DTE-2 — Dante™ 8-channel
- IPE-USB-2 — USB 2.0 ExtremeUSB®
- IPE-USB-2VH — Extreme USB® Virtual Hub
- IPE-REAX-1 — ReAX™ IP Control

NEW

IPX-TC3-C & IPX-TC3-F

The IPX-TC3 Series provides one of the most advanced IP Streaming solutions on the market utilizing Aurora's IPBaseT® technology, which synergizes various IP/AV standards to work together as one. It is the industry's first 4K2K transceiver with zero compression and latency based on BlueRiver NT™+ platform. Using a transmitter (encoder) and receiver (decoder), respectively, used to be the standard – until now. The IPX-TC3 Series can be set up as either one to make installation, inventory, and troubleshooting easier. Another industry first is the option slot to add other IP capabilities, like ExtremeUSB® (USB 2.0 over IP), ReAX™ IP control option or Dante™ audio, for a more complete, distributed system.

- 4K 60Hz 4:4:4 lossless compression & zero frame latency
- HDR (high dynamic range)
- 4K 30Hz 4:4:4 & below – zero compression & zero frame latency
- Available for 10Gbps fiber MMF/SMF or 10Gbps copper networks
- Seamless & breakaway switching (between same resolution)
- Stereo line I/O
- RS-232 & IR control ports
- Dante™ IP audio option
- ExtremeUSB® (USB 2.0 480Mbps) option
- ReAX™ IP control option
- Dual OSD (on screen display) engine
- Secure content encryption

Accessories:

Control

- RXS-1 — ReAX™ Server
- IPBaseT® Manager

Option Cards

- IPE-DTE-1 — Dante™ 2-channel
- IPE-DTE-2 — Dante™ 8-channel
- IPE-USB-2 — USB 2.0 ExtremeUSB®
- IPE-USB-2VH — Extreme USB® Virtual Hub
- IPE-REAX-1 — ReAX™ IP Control

Mounting Options

- IPX-RK3-1-K — 1RU Dual Rack Mount Kit
- IPX-RK3-5-K — 5RU Rack Mount Kit (Holds 12 Units)

Power Supplies

- PS0081-1 — 48V 24 Watt PoE Injector
- PS0094-2 — 48V 25 Watt Wall Supply

NEW

IPX-TC3-C Pro, IPX-TC3-CF Pro & IPX-TC3-DF Pro

The IPX-TC3 Pro Series provides one of the most advanced IP Streaming solutions on the market utilizing Aurora's IPBaseT™ technology, which synergizes various IP/AV standards to work together as one. It is the industry's first 4K2K transceiver with zero compression and latency based on BlueRiver NT™+ platform. Using a transmitter (encoder) and receiver (decoder), respectively, used to be the standard – until now. The IPX-TC3 Pro Series can be set up as either one to make installation, inventory, and troubleshooting easier. Another industry first is the option slot to add other IP capabilities, like ExtremeUSB® (USB 2.0 over IP), ReAX™ IP control option or Dante™ audio, for a more complete, distributed system.

- 4K 60Hz 4:4:4 lossless compression & zero frame latency
- HDR (high dynamic range)
- 4K 30Hz 4:4:4 & below – zero compression & zero frame latency
- Available for 10Gbps fiber MMF/SMF or 10Gbps copper networks
- Windowing/multiviewer, supports up to 32
- 4K scaling with only 3ms latency
- Seamless & breakaway switching (any resolution to any resolution)
- Video wall processing up to 8x8
- Stereo line I/O
- RS-232 & IR control ports
- Dante™ IP audio option
- ExtremeUSB® (USB 2.0 480Mbps) option
- ReAX™ IP control option
- Dual OSD (on screen display) engine
- Secure content encryption

Accessories:

Control

- RXS-1 — ReAX™ Server
- IPBaseT® Manager

Option Cards

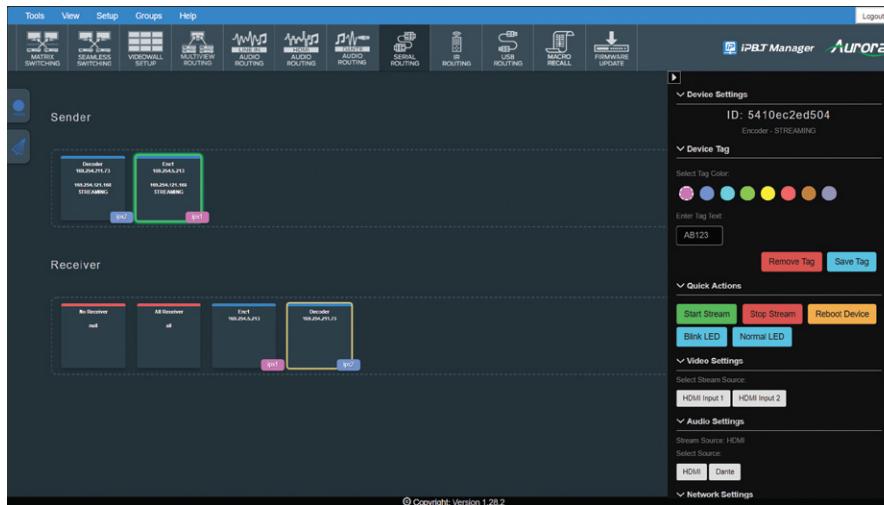

- IPE-DTE-1 — Dante™ 2-channel
- IPE-DTE-2 — Dante™ 8-channel
- IPE-USB-2 — USB 2.0 ExtremeUSB®

IPBaseT® Manager & IPBaseT® Manager Pro

Aurora's IPBaseT® Manager software is an all in one control application for the IPX and VLX series of IPBaseT® AV over IP products. This intuitive software not only allows for simple drag-and-drop signal routing, but also includes powerful utilities for configuring and managing your IPBaseT® system.

IPBaseT® Manager is available for download via our customer portal, <http://portal.auroramultimedia.com>

- Mobile friendly
- Device auto-discovery
- Matrix routing
- Live preview routing
- Seamless switching (IPX Series only)
- Multiview configuration & routing (IPX Series only)
- Video wall setup
- Break-away line & HDMI® audio routing (IPX Series only)
- Break-away serial routing
- Break-away IR & USB routing (IPX Series only)
- Macro recall (IPX Series only)
- Batch firmware update
- Serial & IR send/receive terminal (VLX Series only)
- Comprehensive EDID editor
- Rapid deployment tool

Applications

IPBaseT® AV over IP & ReAX™ Control System

Any input to any or all displays over a standard IP network.

Mix and match Transceivers – Any Transceiver can be configured as an input (TX) or output (RX).
