Home Cinema

Flexson knows the value of really great home entertainment. Perfectly mount your Sonos configuration from Arc to Beam to Sub, and peripheral speakers, for the best home cinema experience.

Wall Mount for Sonos Arc

The Flexson Wall Mount for Sonos Arc allows you to install Sonos Arc quickly and easily onto any suitable wall. Its unique design positions the Sonos Arc 30mm in front of the TV, allowing you to harness the power of Dolby Atmos and immerse yourself in your music, movies and more. Like all Flexson products, the Flexson Wall Mount for Sonos Arc is precision engineered in the UK, easy to fit and comes with all the fixings you need.

- Position the Sonos Arc anywhere on the wall
- 30mm step to position speakers in front of the TV
- Optimised for Sonos Trueplay
- Multipoint fixing points
- Precision engineered from high-grade steel
- Available in black or white

TV Mount Attachment for Sonos Arc

Designed to fit easily on to any existing TV wall mount, the Flexson TV Mount Attachment for Sonos Arc holds the Arc securely in place while allowing it to move with the screen. Flexson's unique design positions the Sonos Arc 30mm in front of the TV, allowing you to harness the power of Dolby Atmos and immerse yourself in your music, movies and more.

- Position the Sonos Arc on to any existing TV wall mount
- 30mm step to position speakers in front of the TV
- Optimised for Sonos Trueplay
- Multipoint fixing points
- Precision engineered from high-grade steel
- Available in black or white

32"-70" Cantilever Mount for Sonos Arc and Sonos Beam

This premium Flexson 32"-70" Cantilever Mount for Sonos Arc and Sonos Beam will unify and securely hold your TV and Sonos Arc or Beam. It allows you to pull out, swivel and tilt your TV and Sonos ARC/Beam so they can be positioned at the ultimate viewing and listening angle. The Cantilever Mount is the perfect partner for TVs from 32" to 70" weighing up to 50Kg. Incorporating Flexson's unique design, the mount positions the Sonos Arc 30mm in front of the TV, allowing you to harness the power of Dolby Atmos and immerse yourself in your music, movies and more. Like all Flexson products, the Flexson 32"-70" Cantilever Mount for Sonos Arc and Sonos Beam is precision engineered, easy to fit and comes with all the fixings you need.

- Compatible with Sonos Arc and Sonos Beam Gen 1 & Gen 2
- Easy to install
- Slim depth of 49mm extending out to 491mm
- 30mm step to position Sonos Arc in front of the TV
- Designed to neatly hide cable entry
- Vertical and horizontal adjustment
- Suitable for 32" to 70" TVs
- Tilts up to 13 degrees, and swivels up to 100 degrees
- Sonos Arc and Sonos Beam moves with your TV when using a full-motion mount

Wall Mount for Sonos Beam

Manufactured from steel and finished in either black or white this practical design will enable you to securely mount your Sonos Beam to a wall. There are two fixing points to make sure the Beam stays in place and plenty of access to route the cables you need.

- Compatible with Sonos Beam Gen 1 & Gen 2
- Precision engineered
- Quick and easy to fit
- High grade steel construction
- Available in black or white

TV Mount Attachment for Sonos Beam

Designed to easily fit onto a full-motion, TV wall mount, this Flexson mount securely holds your Beam in place, while allowing it to move with the screen – meaning optimum performance with music, movies and more. The Flexson TV Mount Attachment for Sonos Beam is easy to fit into your existing flatscreen wall mount. It's the perfect partner for TVs from 32-65in – just add a Sonos Beam for wonderfully unified sound and vision.

- Compatible with Sonos Beam Gen 1 & Gen 2
- Fix the Sonos Beam to any existing TV mount
- Precision engineered
- Quick and easy to fit
- Suitable for 32" to 65" TVs
- High grade steel construction
- VESA compatibility from 100 x 100 up to 400 x 400

Speakers

From indoor speakers such as Sonos One and Sonos Five, to audio on the go with Sonos Move and Sonos Roam, Flexson has all the installation solutions to get the most from a wireless Sonos speaker.

Wall Mount for Sonos One, One SL and Play:1

Flexson's bespoke bracket for the Sonos One, One SL or Play:1 allows you to wall mount your speaker in the ideal place to sound - and look - great. This design gives you more flexibility and functionality.

- Compatible with Sonos One, One SL, and Play:1
- Angle the speaker exactly where you want it
- Designed to neatly hide cable entry
- Built with high-grade steel
- Precision engineered
- Quick and easy to fit
- Tilts down 15 degrees, swivels up to 80 degrees, and can be inverted to hold speaker upside down
- Available in white and black
- Available in singles and pairs
- Fixing hardware included

Ceiling Mount for Sonos One, One SL and Play:1

The Flexson Ceiling Mount for Sonos One, One SL and Play:1 allows you to hang your speaker from the ceiling in the ideal place to sound - and look - great. This improved design gives you yet more flexibility and functionality with clever cable routing to the ceiling. It's ideal for commercial installs in bars, restaurants and shops, as well as for home use.

- Compatible with Sonos One, One SL, and Play:1
- Angle the speaker exactly where you want it
- Designed to neatly hide cable entry
- Base seamlessly fits the speaker, holding it securely
- Holds a single Sonos One, One SL or Play:1 speaker 30cm below the ceiling
- Built with high-grade steel
- Tilts down 15 degrees, swivels up to 80 degrees, and can be inverted to hold the speaker upside down
- Available in white and black

Floor Stand for Sonos One, One SL and Play:1

The Flexson Floor Stand for Sonos One, One SL or Play: 1 holds the speaker at the ideal listening height, and comes with a range of cable management to keep things neat. The stand upright has room for the power cable plus network cable if required, with neat routing for both at the base. As an added bonus, the Flexson Floor Stand for Sonos One, One SL or Play: 1 comes with a power extension cable included, so it's easier to put the stand in the perfect place in your room, even if that's not next to a mains power socket.

- Compatible with Sonos One, One SL, and Play:1
- Ideal height for seated listening
- Includes power extension cable
- Quick and easy assembly
- Includes adjustable carpet spikes and rubber feet
- Designed to neatly hide cable entry
- Constructed from steel and aluminium
- Available in black or white
- Available in singles and pairs

2 x Adjustable Floor Stands for Sonos One, One SL and Play:1

The Flexson Adjustable Floor Stands for Sonos One or PLAY:1 can hold either speaker at a range of heights, allowing them to adapt to a range of potential Sonos set-ups. Whether you need to hold your speakers lower or higher than a standard floor stand would, the Flexson Adjustable Floor Stands are ready to serve, in style. They come in a twin pack: ideal for setting your speakers up as a stereo pair or as the left/right rear speakers in a surround-sound set-up with a Sonos Arc or Beam.

- Compatible with Sonos One, One SL, and Play:1
- Adjustable height for positioning anywhere
- Perfect for use in a 5.1 surround sound set-up
- Includes adjustable carpet spikes and rubber feet
- Designed to neatly hide cable entry
- Constructed from steel and aluminium
- Available in black or white
- Available in pairs

Desk Stand for Sonos One, One SL and Play:1

The Flexson Desk Stand for the Sonos One, One SL and Play:1 speaker is a compact, clever design that angles sound to your ear, minimises vibration and adds a stylish flair. This beautifully styled solution doesn't mean sacrificing space, either: the stand has the same footprint as the speaker. Ideal for use on desks, tables, bedside cabinets, kitchen worktops, coffee tables and anywhere else in the house you want to enjoy your speaker.

- Compatible with Sonos One, One SL, and Play:1
- Perfect for use in any room
- Speaker stand angles sound to your ears
- Provides optimal support for your speaker
- Fully assembled
- Precision engineered in ABS and high-grade steel
- Available in black or white

Wall Mount for Sonos Sub

Flexson's bespoke bracket for the Sonos Sub allows you to wall mount your Subwoofer in the ideal place to sound - and look - great. The Flexson wall bracket is precision engineered to perfectly match the size, style and colour of the Sonos subwoofer. Like all Flexson Sonos products, the wall-mount bracket for the Sonos Sub allows for neat cable routing, easy fitting and flexible placement.

- Compatible with Sonos Sub
- Frees up valuable space
- Allows for discreet positioning
- High grade steel construction
- Precision engineered
- Quick and easy to fit

Wall Mount for Sonos Five and Play:5

Designed to perfectly fit the Sonos Five and Play:5, this Flexson wall-mount bracket is as strong as it is discreet. The bracket securely holds the speaker in landscape position, from where it can be swivelled (up to 30 degrees left or right) and tilted (up to 20 degrees down) to angle your music to the perfect place.

- Compatible with Sonos Five and Play:5
- Built with high-grade steel
- Fixing and installation hardware included
- Precision engineered
- Quick and easy to fit
- Tilts down 20 degrees, and swivels up to 60 degrees
- Available in black and white

Vertical Wall Mount for Sonos Five and Play:5

Designed to perfectly fit the Sonos Five and PLAY:5, this Flexson wall mount bracket is as strong as it is discreet. The bracket securely holds the speaker in a vertical position, from where it can be swivelled (up to 30 degrees left or right) and tilted up to 15 degrees down to angle your music to the perfect place.

- Compatible with Sonos Five and Play:5
- Built with high-grade steel
- Fixing and installation hardware included
- Tilts down 15 degrees, and swivels up to 60 degrees
- Available in white and black

Floor Stand for Sonos Five and Play:5

Designed to position the Sonos Five and Play:5 at the ideal listening height, plus neatly hides away the speaker's power cable. It has a sturdy metal design, with a stable base that can slip under sofas or chairs if needed.

- Compatible with Sonos Five and Play:5
- Ideal height for seated listening
- Allows horizontal or vertical orientation of speaker
- Quick and easy assembly
- Includes adjustable carpet spikes and rubber feet
- Designed to neatly hide cable entry
- Constructed from steel and aluminium
- Available in black or white

Mountable Travel Cover for Sonos Roam

Designed to optimise the Sonos Roam's portability without compromising the sound quality, the Flexson Mountable Travel Cover offers rugged protection and multiple mounting and hanging options. The protective shell guards against knocks and bumps around the home and out on adventures, while the well-positioned cut outs ensure the sound quality is not compromised and allowing connection for charging without removing the case. Complete with carabiner clip for attaching to backpacks, loop holes to accommodate existing straps, and sliding spine fittings for attaching to the wall, bike frames or more, the Mountable Travel Cover from Flexson is the perfect addition to any Sonos Roam.

- Built to optimise the Roam's portability
- Protective shell protects against knocks
- Enables connection to charging dock
- Comes with carabiner clip and mounting attachments
- Designed in the UK

Wall Mount for Sonos Move

This Flexson Wall Mount for Sonos Move allows you to mount your Sonos Move safely and securely, both indoors or out, freeing up valuable surface space in your home or garden. By mounting the Sonos Move on a wall, you not only keep it safe from inquisitive toddlers and pets, you can also position your speaker at the perfect height for enhanced sound projection. Like all Flexson products, the Flexson Wall Mount for Sonos Move is precision engineered in the UK, easy to fit and comes with all the fixings you need.

- Compatible with Sonos Move
- Suitable for use indoors or outdoors
- Precision engineered
- Quick and easy to fit
- Easy to mount and remove Sonos Move
- UV resistant silicone rubber
- High grade-steel construction
- Fixing and installation hardware included
- Frees up space in your home

Floor Stand for Sonos Move

The perfect place to charge and listen to the Sonos Move. The speaker is held securely and is easily removed when you want to take it outside.

- Sonos Move charges while on floor stand
- Easy to mount and remove Sonos Move
- Ideal height for seated listening
- Quick and easy assembly
- Includes adjustable carpet spikes and rubber feet
- Designed to neatly hide cable entry
- Constructed from steel and aluminium

Audio Components

With Flexson, it's simple to keep audio components such as Sonos Port and Sonos Amp neatly installed as they work to bring traditional audio equipment into a wireless connected sound system.

Wall Mount for Sonos Amp

Mount it on a wall or even attach it to the rear of your TV – the Flexson Wall Mount for Sonos Amp allows you to best position your Sonos Amp whilst keeping things tidy. Once the steel plate is mounted to the wall, the Sonos Amp simply slides into position and is held securely. Cables can then be safely concealed within the stylish cable cover, which matches the colour of the Sonos Amp. The Flexson Wall Mount for Sonos Amp can also be fitted to the rear of a TV.

- Frees up valuable space
- Sonos Amp and cable cover can be inverted
- Fits to rear of a TV using VESA mounts
- Tidy design with cable covers and knock-outs
- Precision engineered
- Quick and easy to fit
- High grade steel construction

Wall Mount for 4 Sonos Amps

Free up space with the Flexson Wall Mount for 4 Sonos Amps, the perfect way to wall mount up to four Sonos Amps. Once mounted the Sonos Amps are quickly fitted. The clever hinged frame is designed to make cabling simpler and if required the connections are easily accessible once the install is completed. Once the frame is closed and secured with the security screw, the units cannot be removed. In addition for extra security, a padlock can be fitted. From the front, the cables are concealed behind a colour matched cable cover.

- Compatible with four Sonos Amps
- Frame can be hinged left or right
- Rear access to all four units
- Can be securely locked and closed
- Quick and easy to fit
- High grade steel construction
- Designed to neatly hide cable entry
- Precision engineered
- Quick and easy to fit
- High grade steel construction

Dock for 4 Sonos Amps

The Flexson Dock holds up to four Sonos Amps, keeping your install looking compact and tidy. Once the unit is fitted to a wall or cabinet the four Sonos Amps simply slide in. The Sonos Amps then click into place and are held securely in position via clever retaining clips. These clips will allow the unit to be mounted underneath a cabinet if required. There is also enough space inside the Dock to neatly run cables from all four units. The robust steel construction is colour matched to the Sonos Amp.

- Compatible with four Sonos Amps
- Can be desk or wall mounted, or bolted to a cabinet
- Designed to neatly hide cable entry
- Precision engineered
- Quick and easy to fit
- High grade steel construction

Wall Mount for Sonos Port

Once the steel plate is mounted to the wall, the Sonos Port simply slides into position and is held securely. A padlock (not supplied) can also be fitted to prevent unwanted removal.

- Frees up valuable space
- Can be secured with a padlock (not supplied)
- Precision engineered
- Quick and easy to fit

Cables

To better suit an installation, whether floor standing or wall mounting, Flexson offers 35cm and 5m alternatives to Sonos' standard 2m power cord for Sonos One and One SL.

Short Power Cable for Sonos One, One SL and Play:1

Flexson's Short Power Cable for Sonos One, One SL and Play:1 is a perfect solution if your speaker is close to a power socket. The standard Sonos power cable is 2 metres (6ft) long, which can leave excess trailing cable if your speaker sits close to the power socket. The Flexson Short Power Cable is a mere 35cm (13.8in) long, which allows for a far neater solution. Ideal for kitchens, tablespots and wall mounting, the Flexson Short Power Cable is a bespoke design for the speaker, complete with right-angled connector. It is available in black or white to match the Sonos One, One SL and Play:1.

- Compatible with Sonos One, One SL, and Play:1
- Eliminates cable clutter
- Replaces existing mains cable
- 35cm (13.8in) long
- Perfect for countertops, tablespots, and wall mounting
- Available in black or white
- Available in EU, US and UK plug types

5M Power Cable for Sonos One, One SL and Play:1

The Flexson 5m Power Cable is the ultimate cabling solution, allowing more positional opportunities for your Sonos Speaker. Coming in black or white finishes to match your speaker, the 5m Power Cable is ideal for Flexson Floor Stands, replacing the existing mains cables for the Sonos Play:1 and Sonos One. With the extra cabling length, you'll be able to find the perfect position for your Sonos speaker, replacing your old, ugly extension cables.

- Compatible with Sonos One, One SL, and Play:1
- More placement options with longer cable length
- Replaces existing mains cable
- 5m (16ft) long
- Ideal for use with Flexson floor stands
- Available in black or white
- Available in EU and UK plug types
