Introduction

The LB1200 is a lowboy AV cabinet which allows you to display your medium to large flat-panel TV and store all of your electronics components and accessories. The unit also features two adjustable central component shelves with two doors featuring black glass inserts. A useful cable management system completes a stylish and versatile piece of AV furniture.

Features

- Contemporary styling (designed to fit any décor)
- Extra-strong top shelf
- Generous space for storage
- Adjustable Component Shelf
- Cable Management System
