

TRANSCEND PRO MOUNT

MOTORIZED DROP-DOWN MOUNT

For Up to 75" TV

Downward Travel	27"
TV Maximum Screen Size	75"
Maximum Weight	125 lbs
Swivels	Up to 40° left and right

The Transcend Pro motorized over-mantel mount was built to optimize TV positioning. This precision-engineered mechanism is coupled with superior linear actuation technology to suspend up to 75" TVs at the optimal viewing height with the press of a button. The Transcend Pro's slim profile allows the screen to rest only 1.5 inches off the mounting wall, while 40 degree swivel makes it even more versatile.

- Industry-Leading Reliability
- Easy to Install
- Ships Fully Assembled

All Nexus products are shipped in custom-made protective packaging, and they include everything you need to mount and operate them. The products are designed for easy assembly, and simple instructions with photos are included.

INSTALLATION TIPS

- Tip #1** Plan where to mount the system prior to making any cuts. Use Nexus' Shelf Clearance Table to properly plan your installation.
- Tip #2** See Nexus' instruction manual for all adjustability provided with this mount.
- Tip #3** Attach the Vertical Mounting Bars as high as possible on the TV in order to maximize your downward travel.
