NEW SANUS® ELEMENTS™
HIGH-SPEED HDMI CABLES WITH ETHERNET

Eliminates the need for a separate Ethernet cable

The new SANUS Elements™ high-speed HDMI cables with Ethernet combine video, audio and data streams into a single HDMI cable, reducing the number of cables needed for added convenience and a more organized look. The cables feature a pivoting head that swivels for easy placement behind mounted TVs and other hard-to-reach ports. The cables are compatible with 3D and also include audio return channel, enabling them to send audio to AV receivers or other components. With 10.2Gbps, the new SANUS Elements™ high-speed HDMI cables ensure optimal, high-speed performance.
