MODEL HLVD 20AMP

**6**  
YEAR  
REPLACEMENT  
WARRANTY  
YES, 6 YEARS!!

- Tired of air-conditioner compressors failing?
- Want to eliminate or reduce motor burn out?
- Looking for a quality reliable Australian made solution with a 6 years replacement warranty?

Then check out this din rail mount 20 Amp HLVD model from the Smart Series range. Available for single and 3 phase applications.

## SPECIFICATIONS:

• Supply Voltage	240 VAC 50 Hz
• Maximum Current Rating	20 Amps 4800 W (VA)
• Reaction Speed	800 m/secs
• Detection Voltage	190 v to 270 v
• Delay	180 seconds (3 minutes)
• LED (combination)	Green = OK Orange = delay mode Red (slow flash) = high voltage detected Red (fast flash) = low voltage detected
• Reset	Delay override
• High temp/High impact Polycarbonate Housing Din Rail Mount	
• Operating Conditions	Indoor/AC Mains
• Operating Temperature	-10 °C/+60 °C

## HIGH/LOW VOLTAGE DETECTOR - 3 MINUTE DELAY

Ideal for fridges, freezers, cool rooms, air-conditioners and other motor driven equipment. Offers shutdown protection when voltage drops below 190v or if voltage surges above 270v. This model has a 3 minute delay to prevent rapid switching on/off which can be harmful to electric motors.
