

MODEL

SARK15

SARK15 AVS Rack

AVS Pull out Racks (SARK) are designed for easy rear access to equipment connections in cabinets and flush in-wall installations. Available with a 19" useable depth, the SARK system extends and rotates up to 75° in either direction, making it ideal for large and small systems.

FEATURES

- Removable rack frame allows in-shop integration and on-site installation of equipment
- Rotating equipment at 0° - 75° for easy installation and servicing
- Self-centering mounting base makes it simple to align system within cabinet opening
- Rear cable support works in conjunction with rear rackrail for effective cable management

- Standard front and rear 10-32 threaded rackrail with marked spaces
- Home position locks is placed for stability
- Top ventilation holes for fans
