

B-ATVS Adjustable TV Stand for Sonos Beam

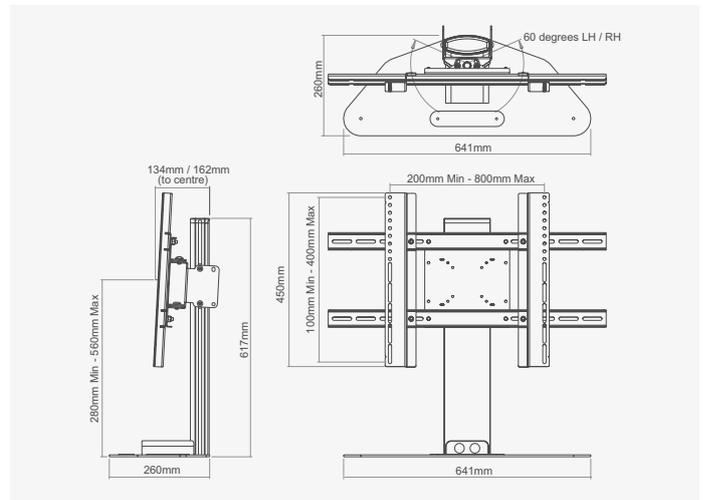

This premium stand allows you to seamlessly mount a TV above the Sonos Beam, keeping the screen visible. Swivel functionality allows for flexible room positioning, including corner placement.

That swivel functionality - 25° left, 25° right - a wide range of available height adjustments to suit different TVs, plus a design that suits sitting in both free space and in corners, makes the Flexson Adjustable TV Stand the most flexible option you can buy. It's also the most sturdy: its aluminium and high-grade steel design – expertly made in the UK - is able to take TVs measuring up to 65in and weighing up to 45Kg.

The Flexson Adjustable TV Stand is easy to use – all fixings and tools are included in the kit, and there's integrated cable management to keep things neat and tidy.

- Mount any TV above the Sonos Beam, keeps the screen visible and allows the TV to swivel.
