

SMALL TV MOUNT

SF208 – Full Motion Mount

The VisionMount SF208 is a full-motion wall mount for small flat-panel TVs and monitors. Sanus Systems' Virtual Axis technology allows the mount to tilt up and down with the touch of a finger. Full motion allows mount to extend, retract and swivel up to 8" from the wall for easy viewing from multiple angles. Adjustment knob enables TV to move easily while maintaining tension, and in-arm cable management easily conceals and routes cables. Post-installation level adjustment ensures TV is perfectly aligned, even after hanging. Fits VESA 75 x 75, 100 x 100 and 200 x 100 to accommodate virtually any flat-panel TV or monitor up to 27" and 20.5kgs.

Specifications

TV Size		Suits TVs up to 27" in size
Maximum Weight Capacity		20.5kg (45lbs)
Mounting Dimensions	Width	75mm (Minimum) – 200mm (Maximum)
	Height	75mm (Minimum) – 100mm (Maximum)
Distance from wall to TV	Retracted	72.6mm
